Innovation is *the* key to growth

R&D (Knowledge)

Talent:
Universities
R&D Orgs

Entrepreneurs

gap gap
Angels VCs

Markets Consumers

Entrepreneurs are the Champions of Innovation

My Passion: Tech Startups

Experience:

- starting them (tech entrepreneur, mentoring)
- raising capital for them & investing in them

Observation over 30 years:

“good” companies *will* always get funded
startups are getting better each year

Conclusion:

It's all about Entrepreneurship & Leadership
Beware of the E-myth!

A Great time to start a Company

- ↗ Prime at 2.25%, low inflation, GDP: ? %
- ↗ Lower taxes (small bus. rate, cap gains exempt)
- ↗ Low R&D costs (SRED Credits)
- ↗ Great Infrastructure (see www.hitechbc.com)
- ↗ Overhaul of securities regs (easier financing)
- ↗ Special incentives: SBVCA - VCC program
- ↗ Make a list of all un-invented things!
- ↗ Americans will buy anything!

What's New?

- Lower Valuations
- More investors at smaller amounts
- Business Structuring is getting more attention
- It's all about EXITS!! – need a “Plan”
(What's better 5X in 5? Or 10X in 10?)
- Politics?

Early Stage vs Startup?

- Early stage:
 - Team
 - Products
 - Business Plan
 - Customers
 - VCs – maybe
- Start Up:
 - one or two people
 - ideas and/or IP
 - VCs – forget it!

What's An Angel?

ANGEL:
a term borrowed from Broadway
(successful “stars” helping “starlets”)

TWO key (ideally) characteristics of Angels:

1. Been there, done that (entrepreneur, CEO)
2. *Invests Own Capital, \$25K-\$1M+ (no agents, no OPM)
(* essential criterion)

Why Entrepreneurs like Angels

- The *best* way to get the funding process started
- If they can't get interest in this level, they won't go far with anyone else
- Angels are a magnet for Venture Capital (really?!)
- Angels make excellent mentors & coaches
- Angel money is true risk capital... and it's becoming more ubiquitous
- Been there, done that – angels are entrepreneurs
It's not just about the money!

What Angels Want

1. Fun
2. Interesting Opportunity
3. A willing protégé
4. To use one's resources
5. Attractive Return:
10X to >>100X
6. 3 I's: Intensity, Integrity, Immediacy (person)
7. 3 G's: Goodness, Greatness, Greed (company)

Angels: Where on Earth are they?

Sorry! There's no "list"
Get a friend...

a mentor
a coach
an advocate

(this is the "key" to the angel network)

There is no shortage of venues!!
(they're everywhere! they're everywhere!)

Good people/deals will always get funded!

ANGELS vs VCs

	ANGELS	VCs
Stage of Investment	Startup (pre-BP)	No startups
Capital Invested & Source	\$100k-\$1M Own Money	>>\$1M Others' Money
Incentive & Participation	No Fees, Hobby Founding team	Fees, Profession Management Team
ROI & Exit Goal	>100X, >\$5M	>10X, >\$100M
Due Diligence	Gut feel, Why to?	No risk, Why not to?
Other Attributes	Fast, innovative, entrepreneurial	Cautious, smart, managerial

Some Recent Observations

- Vantec Angel Study: 50% get funded; \$1M (avg)
- From a Toronto VC:
 - Angels in Vancouver are more sophisticated than VCs
- Vancouver Angels better at syndication; do more deals
- US VC: 22% ROI, California: 54%, Canada: 2%?
US Angels: 2.6X in 3.5 years (ROI = 28%)
- More “angel funds”
- More and more angel groups

ROI? How to calculate?

- eg: 2.6X in 3.5 years (ROI = 28%)
- Use .xls function = IRR(values, guess)
- eg: 12*IRR(D128:AT128,0.2/12)
- monthly vs annual compounding?
- Examples:
 - 2X in 5 years = 15%
 - 5X in 5 years = 38%
 - 10X in 10 years = 26%
 - 50X in 10 years = 48%

Angel's Angst

The Issues:

- How to pick the winners?
- What's the "valuation"? (dumb deals are common!)
- What will we do about follow-on financing?
- Will we suffer merciless dilution? Cramdowns?
- Simply too busy!

The Valuations Issue

- What is the sell-out target? (\$10m? \$100m?)
Angels need at least 10X
 - If an angel gets 15% instead of 10%:
Angel gets 50% more, entrepreneur gets 6% less
 - The 3 times 1/3 rule: Investors: Founders: \$\$\$
- | | | | |
|-----------------|-----|-----|--------|
| Angel Round: | 33% | 67% | <\$1m |
| Series A Round: | 33% | 45% | >\$5m |
| Series B Round: | 33% | 30% | >\$10m |

The Terms Sheet?

- Offering:
Common vs Conv Deb vs Prefs
- Valuation:
Trading cash for futures
Use accretive approach for performance
- Vesting for founders:
50% Linear over 3-4 yrs
50% on liquidity event
- Capital & Structure:
avoid options – use trust shares
- Governance:
board rep/independence
- Shareholders Agreement:
standardize

Winning with Angels:

Remember:

This is a contact sport

This is *not* an institutional activity (it's a network)

(Do not call to inquire about your "application")

Getting a mentor makes *the* difference!

It's just like finding a partner:

Love at first sight does happen, but...

Courting and building a relationship takes time

(one night stands cause headaches!)

Don't be desperate

....And it must be FUN!

What about Scale?

The \$100 million deal?

or

The Lifestyle Business?

Or

Something In between?

YOUR DECISION!

Then sell your story
to the right audience!

The Angel Network (VANTEC)

Under auspices of the VEF... (started Apr'99)
(check: www.vantec.ca for details)

How it Works:

- it is a network (no formal organization!)
 - by angels and for angels
 - monthly meetings: 3-5 short 15 min presentations
 - no hard and fast rules (no application process)
 - works on the sponsorship model
 - dovetails nicely with VCs, Incubators, etc...
- (Note: biotech and tech subgroups have formed)
